Publications

- Authors are invited to submit full length original research contribution and review articles between 7 to 15 pages in length, written in English. The manuscript should strictly follow the Springer "Communications in Computer and Information Science (CCIS)" Template OR "MDPI Computer Science and Mathematics Forum Journal" Template based on the proceeding you want to submit and publish. The templates are available on conference website under submission guidelines tab. Please note that there is no additional page charge beyond 15 pages for this conference, however we recommend to limit your paper within 15 pages, as it should not delay the review process. - All the CISCom 2025 presented papers will be published in any one of the following conference proceedings, based on the choice of the author during submission process:

  1. Springer "Communications in Computer and Information Science (CCIS), Series", Electronic ISSN: 1865-0937, Print ISSN1865-0929. The CCIS series are indexed in Scopus, EI Compendex, DBLP, SCImago, zbMATH, INSPEC, Japanese Science and Technology Agency (JST), and Norwegian Register for Scientific Journals and Series.

  2. MDPI "Computer Sciences and Mathematics Forum (ISSN 2813-0324)", an academic journal dedicated to publishing conference proceedings and meeting reports from the fields of computer science and mathematics.
